OVERVIEW IPA CONVEX 2025

IPA Convex 2025 was held from 20–22 May 2025 at the Indonesia Convention Exhibition (ICE) BSD City, reaffirming its position as Regions leading platform for the energy industry.

IPA Convex 2025 continued to play a pivotal role in uniting professionals, policymakers, investors, and students to address key issues, share knowledge, and explore innovations shaping the energy landscape. The event fostered an engaging atmosphere for high-level discussions, collaboration, and strategic business networking.

Carole J. Gall,
IPA President 2025

"IPA Convex is more than an exhibition. It is a collaborative forum uniting government, industry, technology providers, academics, and students. Across three days, over 80 speakers and hundreds of technical presentations will showcase innovations and solutions, from exploration efficiency to decarbonization, reflecting the industry's relevance and commitment to Indonesia's energy future."

VISITORS FEEDBACK:

IPA CONVEX 2025 IN NUMBER

“The availability and sustainability of our national energy supply are crucial for accelerating development and improving public welfare.”

H.E. Prabowo Subianto,
President of the
Republic of Indonesia

“The presence of the President today brings a breath of fresh air for the Government and oil and gas contractors to realize the President’s target for our oil lifting to reach between 900 thousand and 1 million barrels in the future.”

Bahlil Lahadalia,
Minister of Energy
and Mineral Resources

THE INAUGURATION OF IPA CONVEX 2025

IPA Convex 2025 was officially inaugurated by the President of the Republic of Indonesia, Prabowo Subianto, who praised the industry's role in driving energy transformation and economic resilience, while emphasizing the importance of cross-sector collaboration to strengthen national energy security. The inauguration was witnessed by the Chairman of SKK Migas, the Acting Director General of Oil and Gas, the Special Advisor to the President for Energy, and the President of IPA.

The Inauguration began with welcoming remarks from IPA President Carole J. Gall, setting the tone for the event's strategic focus. A significant highlight followed by the signing ceremony of three major new oil and gas working areas and 24 commercial agreements, signaling strong investment momentum and growing international confidence in Indonesia's energy sector.

CONFERENCE OVERVIEW

With the theme "Delivering Growth with Energy Resilience in Lower Carbon Environment," the IPA Convex 2025 conference serves as the region's premier energy platform, offering a vital space to address pressing challenges and explore opportunities in advancing a low-carbon energy agenda while continuing to drive both national and regional growth. This vision is supported through a comprehensive conference programme, including :

PLENARY SESSION

PLENARY SESSION

The Plenary Session at IPA Convex 2025 gather key stakeholders including government officials, industry leaders, and influential decision-makers to discuss strategic issues shaping the future of energy in Indonesia.

Topics

- Enhancing Indonesia's Long-Term Competitiveness in Global Energy Investment Scene
- Global Executive Talk: Balancing Risk and Opportunities in Global Energy Portfolio
- Energy Resilience Strategy and the Role of Oil and Gas
- Transforming Resources: The Future of Oil and Gas Down-Streaming for Economic Growth and Sustainability
- Setting the Scene: Unlocking CCS Potential as Enabler for Clear Energy Investment
- CCS for Upstream Decarbonization and Beyond
- Accelerating Investment and Multiplier Effect with CCS
- Technology Advancement and the Role of Artificial Intelligence in Meeting Indonesia's Growing Energy Demand
- Empowering Local Contractors and Building Resilience Value Chain
- Roadmap for Increasing Indonesia's Upstream Oil and Gas Investment
- Innovative Strategies for Improving Ease of Doing Business and Process Streamlining

TECHNICAL PROGRAM

The Technical Program served as the intellectual core of IPA Convex 2025, providing a strategic platform for energy professionals to present groundbreaking research, innovative technologies, and practical solutions that advance both upstream performance and the broader energy transition. It brought together geoscientists, engineers, academics, industry players, regulators, and HSSE practitioners in an open exchange of ideas and expertise.

Curated by the Technical Program Committee (TPC), the sessions covered key topics such as sustainable exploration and production, digital transformation, decarbonization, CCUS, and hydrogen development.

CONCURRENT SESSION

The Concurrent Session at IPA Convex 2025 served as a key forum for insightful discussions on emerging technologies, regulatory frameworks, and investment approaches essential to shaping the future of Indonesia's energy sector. Held across multiple time slots during the main conference, these sessions attracted strong participation from industry leaders, government officials, and technical experts. Moderated by leading analysts, legal experts, and thought leaders, the sessions fostered constructive dialogue and multi-stakeholder collaboration, bridging perspectives across national and international energy communities.

Topics:

- Powering the Future: Unlocking the Potential of Bioenergy with Carbon Capture and Storage (BECCS) in Indonesia
- Fuelling the Future: Strategies for Achieving Long-Term Plan Production from East Indonesia through Sustainable Exploration
- Enhancing Project Delivery in Oil and Gas: Key Drivers of Maturation and Acceleration
- Certainty in Contracts, Confidence in Investment: Boosting Oil and Gas Production

INNOVATIVE ENERGY SOLUTIONS

The Innovative Energy Solutions (IES) returned with a fresh rebranding and renewed focus at IPA Convex 2025, Formerly known as the Technology Session. IES was designed to highlight practical innovations and real-world applications that support both upstream performance and lower-carbon energy goals. This year's theme, *"Accelerate Production Increase with Lower-Carbon Solutions,"* set the tone for three days of knowledge sharing and solution-driven discussions.

The forum featured a series of Independent and Group Sessions, led by a diverse range of industry leaders, technical specialists, and solution providers. Topics explored during IES 2025 included:

INDEPENDENT SESSION 1

SIEMENS ENERGY

Topic: Efficiency for Lowering Carbon Emissions

INDEPENDENT SESSION 2

ASPEN AEROGELS, INC

Topic: Next-Gen Aerogel Insulation Transforms Energy Savings, Process Stability, and Asset Longevity

INDEPENDENT SESSION 3

BAKER HUGHES

Topic: Innovative Solutions for Mature Asset Optimization Driving Reduced Carbon Footprint

INDEPENDENT SESSION 4

CHINA NATIONAL LOGGING CORPORATION (CNLC)

Topic: Technology and Practice of Integrated Water Control

INDEPENDENT SESSION 5

PERTAMINA HULU ROKAN

Topic: Sustainable Production Journey: Merging Base Activities, Massive Development, and Digitalization Despite Facility Challenges

GROUP SESSION 1

• TWMA

Topic: Environmental Best Practice – Minimising Emissions and Lowering Well Costs with RotoMill Technology

• SNF

Topic: Polymer Flooding: A Key Technology to Accelerate Oil Production with Lower Carbon Impact

• Sinerco

Topic: Enhancing Efficiency and Productivity with Low-Carbon Compressor Technologies

GROUP SESSION 2

• Future Pipes Industries

Topic: Future Pipe Industries Composite Solutions for Carbon Capture Project

• DeGolyer and MacNaughton

Topic: Carbon Storage Projects – Key Considerations for Advancing Carbon Storage Projects

• XLSMART for BUSINESS

Topic: Intelligent Action, Secured by Resilient Networks, Driven by Lower-Carbon Goals

BREAKFAST MEETING

Theme: Strategic Partnerships in Supply Chain: Unlocking Indonesia's Energy Potential

The Breakfast Meeting at IPA Convex 2025 provided an exclusive and high-level platform for exhibitors, partners, and stakeholders to gain strategic insights into Indonesia's oil and gas supply chain landscape. The session offered valuable perspectives on business entry, procurement processes, and partnership opportunities—especially for those aiming to contribute to the country's upstream growth.

With the goal of strengthening local and international collaboration, this session explored how supply chain partnerships can unlock greater resilience and long-term investment in Indonesia's energy sector. This dialogue was enriched by the insights of distinguished speakers, each representing a critical facet of the supply chain ecosystem with their respective specialties:

Tomy W. Poerwanto

YOUTH @IPA CONVEX 2025

Youth @IPA Convex Program at IPA Convex 2025 was designed to strengthen the collaboration between the Indonesian Petroleum Association (IPA) and academic institutions in nurturing future energy leaders. This year, the program proudly welcomed 12 universities from across Indonesia as official partners. As University Partners, these institutions played an integral role in the success of IPA Convex 2025 by actively participating in various youth-focused activities. Through this partnership, students and faculty members were given exclusive access to key events, networking opportunities with industry professionals, and platforms to present innovative research and ideas to a national audience.

Pre Event Activities

- IPA Goes to Campus
- Student Debate Competition: Preliminary Round

On Show Days Activities

- Student Visit
- Student Showcase
- Student Debate Competition: Final Round
- Students Meet the IPA Boards
- Students Meet the Global Executives

University Partners

ROAD TO IPA CONVEX 2025: RUN & WALK

The Road to IPA Convex 2025: Run & Walk was organised to continue from last year's agenda. The event took place during Sudirman Car Free Day on Sunday, 27th April 2025. The event was attended by IPA invitations with a total of 250 participants. Same as last year, the event consisted of two categories namely; 10-kilometre (run) and 5-kilometre (run and walk). The goal is to foster a sense of togetherness, promote a healthy lifestyle, and provide networking opportunities in a relaxed setting. This event is open for invitation only.

THE ENERGY NIGHT

The Energy Night: Golden Gala, is a highlight of IPA Convex 2025, opened with a vibrant networking session attended by 200 participants, including VIPs from government institutions, along with IPA Board members, delegates, exhibitors, and representatives from leading energy companies.

The evening was more than a celebration, it served as a strategic platform to build relationships, exchange insights, and strengthen collective efforts toward a more resilient and sustainable energy future.

CLOSING CEREMONY

The Closing Ceremony marked the official conclusion of the three-day IPA Convex 2025, attended by VIPs, delegates, and visitors. The program featured the announcement of winners from the Technical Program, including the Gas Development Game and Best Paper Awards (Student and Professional), as well as Best Booth and Favorite Booth awards. The Chairperson of IPA Convex 2025 delivered a closing report, followed by remarks from the Chairman of SKK Migas. The event concluded with an official closing procession led by the SKK Migas Chairman and IPA President, witnessed by IPA Board members and key sponsors, and special performance.

OVERVIEW EXHIBITION

The IPA Convex 2025 Exhibition showcased a strong presence of the upstream oil and gas sector, bringing together over 200 exhibiting companies from both domestic and international markets. It provided a dynamic platform for companies to present their latest technologies, services, and energy innovations.

The exhibition attracted a diverse audience of industry professionals, government representatives, investors, students, and media, offering valuable opportunities for business networking, partnership development, and brand visibility.

EXHIBITORS FEEDBACK

99%

Attendees met their expectations and led to new business prospects

98%

Felt the event positively impacted their business objectives

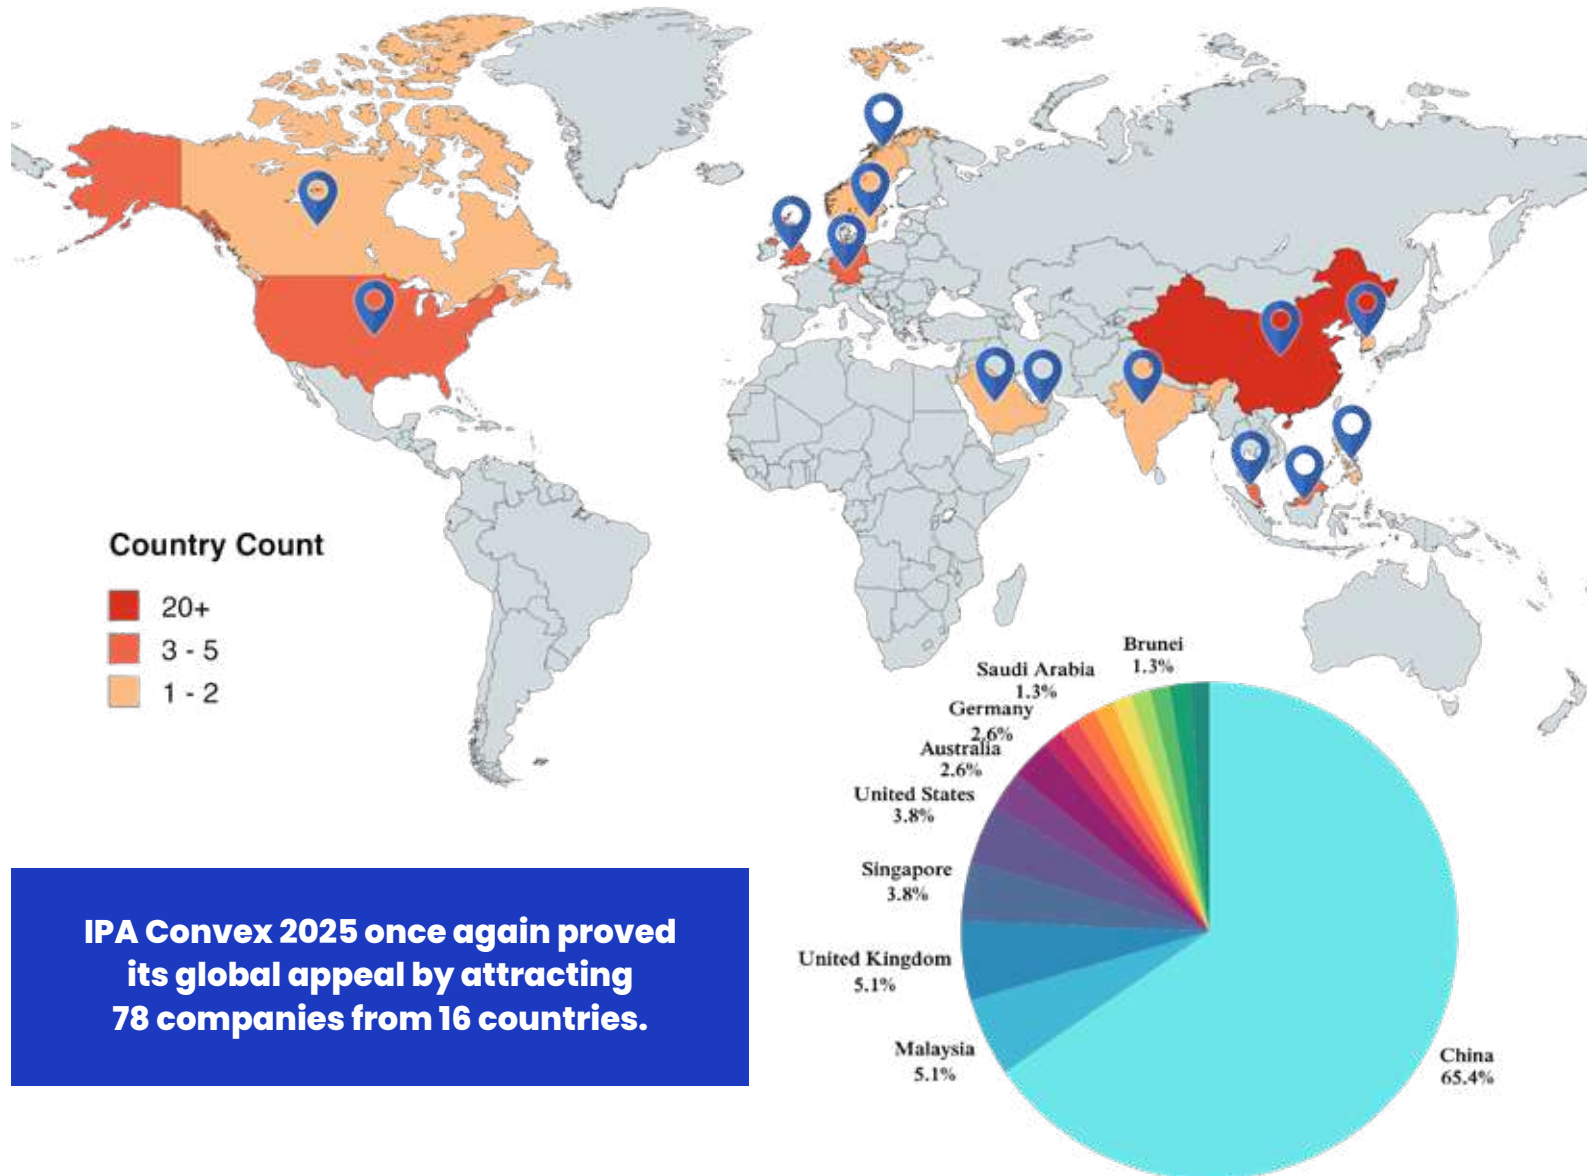

100%

Agreed that IPA Convex is an excellent meeting platform for the oil and gas industry

THE 49TH IPA CONVEX 2025 GLOBAL REACH

EXHIBITION HIGHLIGHTS

IPA Board Tour to Exhibition

The IPA Board Tour to Exhibition was held at the entrance of the exhibition hall on the first day of PA Convex 2025. It began with welcoming speeches from the Chairperson of IPA Convex 2025 and the IPA President. The event was witnessed by the Chairman of SKK Migas, the Secretary of SKK Migas, all IPA Board of Directors, the IPA Committee, the Board of Commissioners of Dyandra Promosindo, and visitors.

Exhibitors' Cocktail

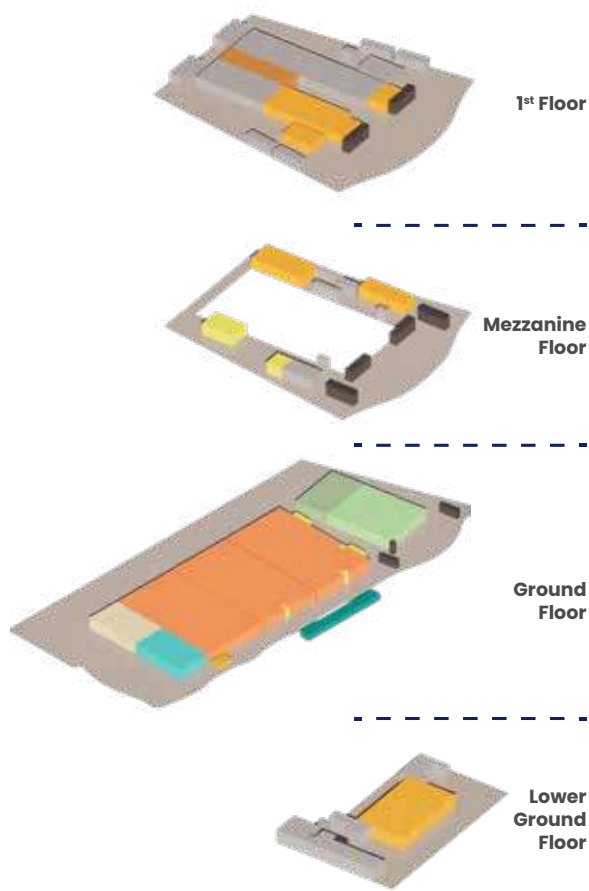

The Exhibitors' Cocktail took place on the second day of IPA Convex 2025, providing a dedicated networking session for exhibitors. Many exhibitors offered snacks and drinks at their booths, with some even featuring live bands as entertainment to engage visitors.

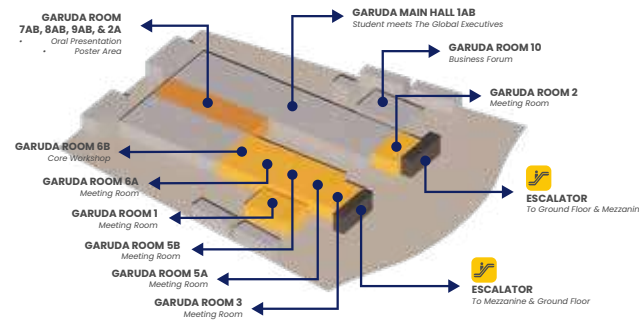

Thematic Booth – Energy Evolution Zone & Collaborative Space

At IPA Convex 2025, the **Energy Evolution Zone** and **Collaborative Space** stood out as two dynamic feature areas while the **Energy Evolution Zone** highlighted the industry's shift toward a sustainable future with two companies showcasing clean energy innovations, the **Collaborative Space** brought together five service companies in a vibrant, shared setting that fostered interaction, networking, and cross-sector collaboration.
